Scrutinizing Your Vendors

Is your supplier financially stable enough to withstand the current economic downturn? In the current economic climate, it's prudent to exercise care in selecting suppliers. Managing supplier risk and being sure of a continuity of supply are crucial. We welcome that scrutiny with absolute confidence in our strength. We're sure of our financial footing and operational agility. [You should be, too>>](#)

Motion Solution Spotlight

New Magneto-resistive Encoder: The MR2

Engineered specifically for applications that require accurate positioning at a controlled speed with high resolution in a compact package. The [MR2](#) encoder offers ease of system upgrade without rigorous qualifications and with improved value in use and cost of ownership due to the MR2's capability to support multiple generations of product upgrades.

Key Features

- Increased resistance to dust and vibration related jitter
- Accuracy in speed and position feedback
- Mounts on motor rear shaft, facilitating compact encoder integration

[Contact us](#) today to learn more or to schedule an appointment to discuss specifications and customization.
