

## Portescap Unveils Motor Innovations at Paris Air Show 2023

### *Portescap Highlights Advanced Aerospace Motor Solutions and Engineering Collaborations at Paris Air Show in Hall 1, Booth H-299*

**Paris–Le Bourget Airport, 19-25 June 2023**

Portescap, a global leader in miniature motor solutions, will show its innovative motor technologies at the 54<sup>th</sup> Paris Air Show being held at Parc des Expositions Paris-le Bourget Aéroport on 19-25 June 2023.

In collaboration with fellow Regal Rexnord brands Kollmorgen and Regal Aerospace, Portescap is poised to present its extensive portfolio to thousands of visitors from around the world. The showcase will feature cutting-edge flat motors and the Ultra EC™ brushless motors, which are ideal for a variety of aerospace applications.

Discover Portescap's latest advancements in **Hall 1, Booth H-299**, where its team will be showcasing a comprehensive selection of solutions, from versatile commercial off-the-shelf (COTS) products to bespoke engineering solutions. The team will also be demoing a control actuation system for precise missile fin control that is powered by miniaturized motion solutions.

Portescap's expertise transcends conventional motor technology, delivering power-dense, lightweight solutions engineered to withstand extreme conditions and broad temperature fluctuations. Furthermore, the company is currently working towards AS9100 Aerospace Quality Standards certification, with full accreditation expected in early Quarter 3, 2023.

Boasting over 70 years of engineering prowess, Portescap has been a trusted partner in motion solutions for aerospace and defense applications for over four decades. Its unique Engineer-to-Engineer (E2E) design collaboration ensures the creation of tailored designs that address specific application demands and challenges.

Key applications for Portescap's motors encompass:

- Missiles/Smart Ordnance
- Flight Control Systems
- Window Shades and Seat Actuation
- Fuel Valves and Propulsion Systems
- Environmental Control Systems
- Electro-Optical/Infrared Systems

# News Release

**Portescap**

Experts from Kollmorgen, which has more than 100 years of motion experience in the industry's highest-performing and most reliable motors, drives, linear actuators, AGV control solutions and automation control platforms, will be present at the Portescap booth. Sister brand Rexnord Aerospace will also be exhibiting in **Hall 3, Booth E24**. This joint showcase underscores the strong partnership and synergies between these brands, highlighting the full capabilities of the Regal Rexnord family.

Join Portescap at the Paris Air Show to explore its innovative motor solutions and experience the power of collaboration with other Regal Rexnord brands, offering a comprehensive array of aerospace and defense solutions. For more information or to schedule a meeting with Portescap during the show, please email [marcomrequest@portescap.com](mailto:marcomrequest@portescap.com).

## About [Portescap](#)

Portescap offers the broadest miniature and specialty motor products in the industry, encompassing coreless brush DC, brushless DC, stepper can stack, gearheads, digital linear actuators and disc magnet technologies. Our products have served diverse motion control needs in a wide spectrum of applications including medical, life science, instrumentation, automation, aerospace and commercial for more than 70 years.

Portescap has manufacturing centers in the United States and India and utilizes a global product development network with research and development centers in the United States, China, India and Switzerland.
